DEFINITIONS

MEDICAID

Medicaid is the federal health insurance program that provides coverage to low-income individuals who meet eligibility criteria. Individuals who are Michigan residents and meet the citizenship, income and asset requirements may be eligible for straight Medicaid, which is Medicaid coverage without a Health Maintenance Organization (HMO) plan. An HMO is typically used to expand Medicaid coverage.

MEDICAID HMO

HMO stands for Health Maintenance Organization. With a Medicaid HMO plan, individuals must choose a Primary Care Physician (PCP) from a network of local healthcare providers who will refer the enrollee to in-network specialists or hospitals, when necessary. All care is coordinated through that PCP.

HEALTHY MICHIGAN PLAN

Michigan health care program that provides health care benefits to low income residents under the State of Michigan's Medicaid Expansion Program. The Healthy Michigan Plan encourages healthy behaviors and personal responsibility, helps low-income Michigan residents access affordable health coverage, and reduces uncompensated care that shifts costs onto businesses and taxpayers.

HOW DO I APPLY?

- **Healthy Michigan/Medicaid:**

Online: www.michigan.gov/mibridges

Phone: 855.789.5610

In Person:

Visit your local DHHS office

Dental Benefits for Veterans

Dental benefits are provided by the Department of Veterans Affairs (VA) according to law. In some instances, VA is authorized to provide extensive dental care, while in other cases treatment may be limited. This Fact Sheet describes dental eligibility criteria and contains information to assist Veterans in understanding their eligibility for VA dental care.

Outpatient Dental Program

The eligibility for outpatient dental care is not the same as for most other VA medical benefits and is categorized into classes. If you are eligible for VA dental care under Class I, IIA, IIC, or IV you are eligible for any necessary dental care to maintain or restore oral health and masticatory function, including repeat care. Other classes have time and/or service limitations.

If you:	You are eligible for:	Through
Have a service-connected compensable dental disability or condition.	Any needed dental care	Class I
Are a former prisoner of war.	Any needed dental care.	Class IIC
Have service-connected disabilities rated 100% disabling, or are unemployable and paid at the 100% rate due to service-connected conditions.	Any needed dental care. [Please note: Veterans paid at the 100% rate based on a temporary rating, such as extended hospitalization for a service-connected disability, convalescence or pre-stabilization are not eligible for comprehensive outpatient dental services based on this temporary rating].	Class IV
Apply for dental care within 180 days of discharge or release (under conditions other than dishonorable) from a period of active duty of 90 days or more during the Persian Gulf War era.	One-time dental care if your DD214 certificate of discharge does not indicate that a complete dental examination and all appropriate dental treatment had been rendered prior to discharge.*	Class II
Have a service-connected non-compensable dental condition or disability resulting from combat wounds or service trauma.	Any dental care necessary to provide and maintain a functioning dentition. A Dental Trauma Rating (VA Form 10-564-D) or VA Regional Office Rating Decision letter (VA Form 10-7131) identify the tooth/teeth/condition(s) that are trauma rated.	Class IIA

If you:	You are eligible for:	Through
Have a dental condition clinically determined by VA to be associated with and aggravating a service-connected medical condition.	Dental care to treat the oral conditions that are determined by a VA dental professional to have a direct and material detrimental effect to your service connected medical condition.	Class III
Are actively engaged in a 38 USC Chapter 31 vocational rehabilitation program.	Dental care to the extent necessary as determined by a VA dental professional to: <ul style="list-style-type: none"> • Make possible your entrance into a rehabilitation program • Achieve the goals of your vocational rehabilitation program • Prevent interruption of your rehabilitation program • Hasten the return to a rehabilitation program if you are in interrupted or leave status • Hasten the return to a rehabilitation program of a Veteran placed in discontinued status because of illness, injury or a dental condition, or • Secure and adjust to employment during the period • Make it possible for you to be fully independent in your daily living 	Class V
Are receiving VA care or are scheduled for inpatient care and require dental care for a condition complicating a medical condition currently under treatment.	Dental care to treat the oral conditions that are determined by a VA dental professional to complicate your medical condition currently under treatment.	Class VI
Are an enrolled Veteran who may be homeless and receiving care under the Homeless Veterans Dental Program (VHA Directive 2007-039).	A one-time course of dental care that is determined medically necessary to relieve pain, assist you to gain employment, or treat moderate, severe, or complicated and severe gingival and periodontal conditions.	Class IIB
Are you currently getting inpatient care in a hospital, nursing home, or other supervised homelike care setting (domiciliary care).	Dental services that a VA dental care provider—working with your primary care provider—concludes you need to manage a health condition a doctor is currently treating you for.	Inpatient Status

** Note: Public Law 83 enacted June 16, 1955, amended Veterans' eligibility for outpatient dental services. As a result, any Veteran who received a dental award letter from VBA dated before 1955 in which VBA determined the dental conditions to be non-compensable are no longer eligible for Class II outpatient dental treatment.*

Dental and Veterans Access, Choice and Accountability Act (Veterans Choice Program)

Fact Sheet

The Veterans Choice Program is one of several programs through which a Veteran can receive care from a community provider, paid for by the Department of Veterans Affairs (VA). For example, if a Veteran needs an appointment for a specific type of care, and VA cannot provide the care in a timely manner or the nearest VA medical facility is too far away or too difficult to get to, then a Veteran may be eligible for care through the Veterans Choice Program.

To use the Veterans Choice Program, **Veterans must receive prior authorization from VA** to receive care from a provider that is part of VA's VCP network of community providers. The authorization is based on specific eligibility requirements and discussions with the Veteran's VA provider. VA must authorize care that is needed beyond the scope of the first authorization.

Eligibility

Veterans may be eligible to receive care through the Veterans Choice Program based on one or more of the following conditions:

- VA can't provide the services the Veteran needs
- VA can't make an appointment for the Veteran at the nearest VA medical facility within 30 days of the clinically indicated date (the date the Veteran and their VA provider agree should be the next date the Veteran is seen for care)—or, if VA can't determine this date—the date the Veteran prefers to be seen next
- Veteran lives more than 40 miles (driving distance) from the nearest VA medical facility with a full-time primary care physician
- Veteran has to travel by air, boat, or ferry to get to the nearest VA medical facility
- Veteran faces an excessive burden in traveling to the nearest VA medical facility (such as geographic challenges, environmental factors, or a health problem that makes it hard for you to travel)
- VA will work with the Veteran to determine eligibility based on the above conditions and the Veteran's specific circumstances.

The following are FAQs regarding non-VA dental care and the Veterans Choice Program:

Question: What happens if a Veteran calls the TPAs regarding dental care?

Answer: The TPAs have been advised to refer Veterans requesting dental care through Choice to contact the Business Office at their local VAMC for non-VA dental eligibility.

Question: How does the local Dental Service know if the Veteran qualifies for care under the 40+ mile rule? And if they do, will it be the Business Office or Dental Service at their local VAMC to refer them to a local provider of their choice?

Answer: The local Dental Service should coordinate with their local Choice Champions. All Choice Champions are authorized access to a site that contains a listing of all eligible Veterans under the “40 mile” criteria. If a Veteran is eligible under the “40 mile” criteria and meets dental eligibility requirements, the local VAMC Business Office will refer Veterans to a local provider of their choice using regular non-VA medical care procedures outlined in the NNPO Dental Procedure Guide.

Question: Should dental patients falling under the 30+ day eligibility still be entered on the Veteran Choice List (VCL)?

Answer: Eligible Veterans seeking dental care should NOT be entered on the VCL. Instead, the Business Office will refer the Veteran to their local VA Dental Service. If the local Dental Service cannot provide the care within 30 days of the clinically indicated date, then the Veteran should be referred to the community using regular non-VA medical care procedures outlined in the NNPO Dental Procedure Guide.

Question: In most states, less than 5% of dentists are Medicare qualified and this effectively eliminates the majority of dentist to provide care under the Choice Program. Can a Veteran choose any licensed dental provider in their community that accepts the VA’s reimbursement?

Answer: Yes. Due to the fact most dental providers do not meet the specific provider credentialing outlined under the Choice Program, a Veteran can choose any licensed dental provider in their community that accepts the VA’s reimbursement. All existing procedures as outlined in the NNPO Dental Procedure Guide must be followed.

Question: How will non-VA dental care be funded?

Answer: Non-VA dental care will be paid by regular non-VA Medical Care funds that are centrally managed and funded by the Chief Business Office (CBO). This includes funds that were previously allocated for homeless Veteran dental care and are now in a specific account within the CBO.

Question: Do sites have to pay Medicare rates for VACAA dental care?

Answer: Although VACAA states that payments will be at Medicare rates, Medicare rates do not exist for many dental procedures and many dental market locales require payment at rates higher than Medicare rates or the Fair Health 50th percentile rate; therefore, VA VAMCs should continue to use the variance approval process as outlined on Page 7 of the NNPO Dental Procedure Guide.

Question: How do I know if I am eligible for the Veterans Choice Program?

Answer: To find out if you are eligible for the VCP, call 866-606-8198 for more information.

Question: What happens once I am determined as eligible?

Answer: If you are a distance-eligible Veteran, call the VCP call center at 866-606-8198 to set up an appointment. If you are a wait list-eligible Veteran, you will receive a phone call from a VA partner (a non-VA phone number) to help set up your appointment.

Question: I live in Alaska/Hawaii. Am I automatically eligible for VCP?

Answer: Yes. If you are a Veteran who is enrolled in VA healthcare, you are eligible.

Question: I live in New Hampshire. Am I automatically eligible for VCP?

Answer: Yes. If you live more than 20 miles driving distance from the White River Junction VA medical center, you are eligible. If you live less than 20 miles driving distance from the White River Junction VA medical center, you are not eligible, based on the distance criteria.

Question: How is the 40-mile calculation determined?

Answer: This calculation is based on the distance from your permanent residence (or an active temporary address) to the closest VA medical facility, including community-based outpatient clinics. If you live more than 40 miles driving distance from the closest VA medical facility that has a full-time primary care physician, you are eligible for VCP.

Health Net Federal Services Contract has Ended — The Department of Veterans Affairs (VA) contract with Health Net Federal Services (HNFS) ended on September 30, 2018. HNFS was the third party administrator for the eastern region of the Veterans Choice Program (VCP) and Patient-Centered Community Care (PC3) network. When the contract with HNFS ends, VA will take over all activity previously performed by HNFS. **The end of the VA contract with HNFS does not affect the VA contract with TriWest Healthcare Alliance, which administers the western region of the VCP and the PC3 network.**

VA will work with Veterans, community providers, and VA staff to transition care coordination from HNFS to your local VA medical facility as seamlessly as possible. No immediate action is needed on your part. However, if you are requesting care in the community, please contact your local VA medical facility to coordinate all care after September 30, 2018. If you are unaware of whom you should contact, visit the VA Facility Locator to find your local facility.

Current as of Dec. 4, 2018

Community Dental Care

(available Non-VA Dental Care)

The dentists and dental clinics listed below may have reduced rates for Veterans seeking dental care with them. Each facility would need to be contacted to see if you might qualify for dental care at a reduced rate.

Community Dental Care (available Non-VA Dental Care)

The dentists and dental clinics listed below may have reduced rates for Veterans seeking dental care with them. Each facility would need to be contacted to see if you might qualify for dental care at a reduced rate.

VA Dental Insurance Program (VADIP)

The Department of Veterans Affairs Dental Insurance Reauthorization Act of 2016 extends VADIP until December 31, 2021. Veterans who are enrolled in the VA health care system and beneficiaries and their dependents of the Civilian Health and Medical Program of the VA (CHAMPVA) can enroll in the program. VADIP offers eligible individuals the opportunity to purchase discounted dental insurance coverage that includes diagnostic services, preventive services, endodontic and other restorative services, surgical services and emergency services.

Michigan Veterans Trust Fund

The Emergency Grant Program is intended to help veterans overcome an unforeseen situation causing a temporary or short term financial emergency or hardship that a grant will resolve and the applicant can demonstrate the ability to meet future expenses.

To apply for emergency funds from the MVTF, veterans should contact the MVTF county committee serving the county where you reside or fill out and submit an Emergency Assistance Form.

Applications for assistance are reviewed and decided upon by committees appointed by the Michigan Veterans Trust Fund Board of Trustees. Appeals and reviews are sent to the board for consideration at their monthly meeting. The seven-member board is appointed by the Governor, and has constitutional authority over Emergency Grant Program expenditures and policies.

Michigan Donated Dental Services (DDS)

Dental Lifeline Network-Michigan; requires application-eligibility based on permanent disability, elderly or medically at risk and lack adequate income to pay for needed dental care. While there is generally no cost to qualifying individuals, people in a position to pay may be encouraged to do so, particularly if dental laboratory work is needed. If qualified for Medicaid, you will be asked to utilize this resource before using DDS. **All applications must be submitted through a DDS Coordinator.**

Karn Cornell, DDS Coordinator: southeast Michigan - 517.347.0054

Domonique Brace, DDS Coordinator: outside southeast Michigan - 517.347.6994

Please note: This list is offered as a service to our Veterans who are not eligible for dental care within the VA system. The VA does not recommend one facility over another, has no financial or other arrangements with any of these facilities, has not performed any review of the facilities or dentists, does not warrant any care that may be provided and will not be responsible for any fees charged by these facilities.

Key Ingredients in Preventing Tooth Decay and Maintaining a Healthy Mouth:

Babies

Most doctors believe:

- Real smiles occur when babies are awake at the age of four-to-six weeks.
- Babies start smiling in their sleep as soon as they're born.

Children

Over 19% of children ages 2-19 have untreated cavities.

- Do not share spoons, forks, or cups.
- Visit your dentist regularly.
- Brush twice per day with an ADA-accepted fluoride toothpaste.
- Clean between the teeth daily with floss.
- Eat a balanced diet and limit snacks (especially raisins and fruit rollups).
- Take children to a dentist when the first tooth appears and no later than their first birthday.
- Brush children's teeth as soon as they begin to come into the mouth by using fluoride toothpaste in an amount no more than a smear or the size of a grain of rice, twice per day (morning and night) or as directed by a dentist or physician.
- Until you're comfortable that your child can brush properly on their own, (3-6 yrs.) brush your child's teeth twice a day with a child-size toothbrush and a pea-sized amount of fluoride toothpaste. When your child has two teeth that touch, you should begin flossing their teeth daily.
- Get sealants (plastic coatings that prevent tooth decay) to protect permanent molars.

Teens

- Avoid sugary and starchy snacks.
- Wear a mouth guard when you're active.
- Don't smoke.
- Don't pierce your lips or any part of your mouth.
- Regular dental visits set you up to be Mouth Healthy for Life.
- Brush twice per day with an ADA-accepted fluoride toothpaste.
- Clean between the teeth daily with floss.

Adults

- Gum Disease is the leading cause of Tooth Loss in ADULTS.
- Don't smoke.
- Regular dental visits set you up to be Mouth Healthy for Life.
- Visit your dentist regularly.
- Brush twice per day with an ADA-accepted fluoride toothpaste.
- Clean between the teeth daily with floss.

Practicing Proper Dental Care:

- Shortens time with the dentist and dental hygienist
- Prevents tooth decay
- Prevents gum disease
- Saves money
- Helps prevent bad breath
- Helps keep teeth white
- Improves overall health
- Makes it possible for your teeth to last a lifetime
